French: native
English: fluent

Senior Product Designer (Freelance)

Akeneo, Nantes (France), June 2025 - Dec. 2025

Feature Optimization in Production. Enhanced existing functionality based on usage analysis and KPIs: identified friction points, redesigned user journeys, and measured impact on adoption.

Senior Product Designer (Freelance)

La MAIF, Niort (France), 2024 - 2025

Optimization and evolution of the back-office portal in regulated insurance. Mapped end-to-end experiences and user flows, driven by field research to pinpoint and prioritize user friction.

Mentored a junior designer through onboarding, daily design reviews, and execution of their first end-to-end project, accelerating their autonomy and integration.

Senior Product Designer

Akeneo, Nantes (France), 2021 - 2024

Led end-to-end design in a B2B SaaS scale-up managing product data for 900+ businesses. Simplified complex enterprise processes and delivered features that drove user adoption and became key pre-sales requirements.

Discovery and first MVP concepts

Framed the problem through international user research (Europe/US) and workshops with SMEs and stakeholders, then designed the first MVP concepts — validated by iterative user testing.

Delivery & continuous improvement

Embedded with the squad to ship high-fidelity designs, and built scalable, reusable components into the Figma Design System. Set up continuous research rituals and tracked success KPIs.

Streamlining internal design processes

Formalized Akeneo's Discovery framework within a cross-functional Task Force (Senior Design/PM/Dev), and mentored teams on the user research methods rolled out by Research Ops.

UX Designer

Videotron, Montréal, 2019 - 2020

Customer Portal Redesign. Optimized the user interface in collaboration with the UX Researcher. Coordinated UI production and UX writing delivered by external agencies.

UX Designer

Manulife, Montréal, 2018 - 2019

Group Benefits Digitalization (B2B2E). Designed the enrollment experience end-to-end, from requirement gathering with POs to interactive prototyping. Validated user flows through remote usability testing.

UX Designer

RBC, Toronto, 2015 - 2018

Simplified complex financial workflows in a regulated banking environment. designed multiple credit and investment subscription journeys through design sprints, from user research to interactive prototyping.

Other experiences

UX Designer at Desjardins Montréal, 2021
UX Designer at CN Montréal, 2020
UX Designer at Usabilis Paris, 2015
UX internship at Thales Avionics Toulouse, 2013
